

New York Stock Market

New York, August 13.—Dealing in stocks to-day were of a singularly confusing character. Trading was moderately large in the first hour. Later it fell off to minor proportions, but at no time was there marked strength in those issues which constituted a speculative force.

For the greater part of the session favorite United States Steel and the Harman and Hill issues within narrow limits when not under restraint while Reading and Lehigh Valley were obviously under pressure.

In fact, Reading's heaviest was a foreseen feature of the day.

There was a continuation of the upward movement in shares of such Southern transportation lines as Louisville and Nashville and Atlantic Coast Line, the buying being stimulated by circumstantial details concerning forthcoming developments in the first named property.

Unusual strength was also manifested by the Gould group as represented by Denver and Rio Grande common and preferred and Missouri Pacific, while Erie, too, was in demand. Coppers and General Electric as well as Southern Railway preferred were very active at higher prices in the final hour, the market making a fairly strong close after another spell of weakness in the anthracites, Union Pacific and a few other prominent issues.

Bonds were irregular, with a sharp decline in St. Louis and San Francisco General. Total sales, par value, were \$1,240,000. United States government bonds were unchanged on call.

New York, August 13.—Money on call steady, 2 1/2-3 per cent; ruling rate 3 1/2-4. Time loans steady; high rate 3 1/2-4 per cent; six months, 4 1/2-5 per cent. Sterling exchange, £1 1/4 per cent. Sixty-day bills, £4,8450 for forty-day bills, £4,8710 for demand. Commercial bills, £4,83-4.
